

Appendix I. Informed Consent
(Online survey)

Research Participation Information and Informed Consent

You are invited to participate in research about the value judgment on the objective cues. This study is intended to investigate the psychological influence of designed objects in various contexts.

This survey will take approximately 30 minutes to complete. Participants in this study will be asked to answer simple evaluation questions. The questions contain images and text followed by rating scales. There are less than minimal risks foreseen in this survey. There is no monetary compensation for the participation.

Your response will be treated as confidential information. The data collected will be stored in the researcher's backup device with passwords for five years after the end of study. Your participation is totally voluntary and anonymous. You can refuse to participate without any penalty. You can withdraw the participation whenever you may want.

Please indicate if you will participate in this research study by clicking the next button below. We appreciate your help.

Introduction

In this task, we are interested in understanding people's perceptions of images and related concepts.

On each of the following screens, you will be presented with an image and then asked to rate it along seven items. You will rate multiple images.

Please note that there are no right or wrong answers; we're simply interested in your immediate responses.

When you are ready, please press the next (>>) button below.

Opportunity of research participation

I am writing to invite you to participate in research about the value judgment of objective cues. This study will be conducted by any volunteer who is interested.

Participants will complete a short online survey about how different design elements of the object would influence on their evaluation. It will take approximately 30 minutes to complete.

Your participation is completely voluntary. You may change your mind at any time and withdraw without any penalty. You will not receive any benefits for participating in this study. However, your participation will help us better understand aesthetic and value judgment of objective cues.

Thank you for your participation and please let me know if you have any questions.
